PROFESSIONAL SUMMARY

Entry-level Full Stack Developer with hands-on experience building database-driven web applications using Java, Spring Boot, React.js and MySQL. Developed RESTful APIs with Spring Boot and server-side modules with JSP, Servlets and JDBC, implementing CRUD operations, authentication and frontend-backend integration across two full-stack projects. Completed a seven-month Java full stack internship covering backend services, database integration, debugging and Git-based development. Strong foundation in OOP, DSA and DBMS, with 200+ coding problems solved across LeetCode, GeeksforGeeks and HackerRank.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+), Python, SQL

Frontend Development: React.js, JavaScript, HTML5, CSS3, Responsive Web Design

Backend Development: Java, Spring Boot, REST APIs, JSP, Servlets, JDBC, MVC and DAO Patterns

Databases: MySQL, SQL, Relational Database Design, CRUD Operations

Computer Science Fundamentals: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), DBMS, Java Collections, Exception Handling, Multithreading

Development Tools: Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Apache Tomcat

PROJECTS

Smart Recruitment & ATS Platform **2026**

React.js, *Spring Boot*, *REST APIs*, *MySQL*

- Developed a recruitment platform for managing job postings, candidate profiles, applications and recruitment workflows, with a responsive React.js interface.
- Built RESTful APIs using Spring Boot and integrated MySQL for candidate, job and application data management, implementing full CRUD operations.
- Implemented candidate tracking, resume management, application status tracking, and search and filter functionality to streamline the recruitment process.

Foodian — Food Delivery Web Application **2026**

Java, *JSP*, *Servlets*, *JDBC*, *MySQL*, *HTML5*, *CSS3*, *JavaScript* *github.com/Swathi-Bhaskar/Foodian*

- Built a full-stack food delivery application featuring user authentication, restaurant browsing, menu management, cart, checkout and order placement.
- Implemented backend services with Java Servlets, JSP and JDBC following MVC and DAO architecture, and developed CRUD operations for restaurants, menus, users and orders.
- Developed an administrative module for managing application data, and deployed the application on Apache Tomcat.

INTERNSHIP EXPERIENCE

Java Full Stack Web Development Intern **Jan 2026 – Jul 2026**

TAP Academy *India*

- Developed full-stack applications using Java, Spring Boot, React.js, REST APIs, MySQL, HTML5, CSS3 and JavaScript.
- Worked on backend services, database integration and frontend-backend connectivity, implementing CRUD operations and debugging application issues.
- Managed source code and collaborated through Git-based development workflows.

Python Development Intern **Jan 2025 – Feb 2025**

Gateway Software Solutions *Coimbatore, India*

- Contributed to backend development and database operations as part of software application development.
- Applied Python programming and SQL to application development tasks, and gained practical exposure to software development practices.

EDUCATION

B.Tech in Information Technology — CGPA: 8.0 **2022 – 2026**

M.P. Nachimuthu M. Jaganathan Engineering College *India*

Higher Secondary Certificate (HSC) — 90% **2021 – 2022**

Bethel Matric Higher Secondary School *India*

ACHIEVEMENTS

- Solved 100+ coding problems on LeetCode and GeeksforGeeks, strengthening data structures and problem-solving skills.
- Solved 100+ coding problems on HackerRank, improving algorithmic thinking and programming efficiency.
